

A cozy gift from Simply Cozy Collective

There's a certain kind of magic found in a quiet moment with a cozy cat.

A soft nap by the window, a warm corner, a peaceful pause in the middle of the day.

This little collection of 20 cozy cat coloring pages was made to help you slow down, take a gentle breath, and ease into some tender creativity—no pressure, no rules, just peace.

You can color them all at once, or tuck them away for when you need a little pocket of calm. Use pencils, markers, pastels—whatever feels most soothing in your hands.

There's no right way to color. Take your sweet time. Pause whenever you like. Come back when it feels right.

Just like cats know so well, you don't need to hurry.

Cozy moments don't need to be productive—they just need to be cherished.

This collection is part of the cozy world of Simply Cozy Collective, where slow living, gentle creativity, and comforting moments all come together.

So glad you're here
